

Schedule of Lectures

„Sustainable Urban Technologies (SUT)“

winter term 2016/17

for students of the **first semester**

**Kindly note: Please consult LSF-Link for current information
and current announcements!**

**Please make familiar with the LSF (electronic Schedule of
Lectures) from our University!**

Important! The registration for participation in the courses and the participation in the examinations of the selected courses are two different issues! Kindly note: Only in the courses, in which you registered for exams and in which you have successfully completed the examination you can receive credits!

For participation in the courses please send an email to the Lecturer. For the examination of the courses you have to apply and register online or by writing to the examination office during the specified registration period from the University. Information about the registration period, other audit information and templates from the examination office can be found here:

https://www.uni-due.de/verwaltung/pruefungswesen/e_sustainable_urban_tech_startseite.php

Mrs. van Wasen (beate.vanwasen@uni-due.de) from the central examination office of the University is responsible e.g. for the registrations of the examinations and the recording of all your results. All courses in which you are registered for the examination will be listed on your transcript of records. In the LSF you can see and print the transcript with all the results of your examinations.

Overview

Sustainable Urban Technologies				
No. of Module	Title of the Course	Lecturer	Time Schedule	Type of course
1	Integrative Module I - Introduction to Urban Systems (compulsory)			
1.1	RUHR LECTURE – Key Issues in Metropolitan Research (en) (Pflicht)	Gurr/Schmidt et al.	Alway Mondays! <ul style="list-style-type: none"> • October, 17 until November, 14 2016 (17.10.16 – 14.11.16) 4p until 6pm at Campus Essen (room R12 S00 H12); exception: October, 24 room S07 S00 D07); • November, 21 until December, 12 (21.11.16 – 12.12.16) 6pm until 8pm at Ruhr-Universität Bochum (Room HZO 60); • January, 9 2017 until January, 30 2017 (9.1.17 – 30.1.17) 5pm until 7pm at TU Dortmund (Room MB III, E.001) 	Lecture
1.2	Introduction: Sustainable Urban Technologies (en)	Krumme	Wednesdays, between 4 p.m. and 6 p.m	Lecture
1.3	Introduction: Urban Culture, Society and Space (en)	Gurr/Wehling	Wednesdays, between 12 a.m. and 2 p.m	Lecture
1.4	Introduction: Integrated Urban Development	Schmidt/Tran	Wednesdays, between 10 a.m. and 12 a.m	Lecture

Σ			120	30				

Annotations

(1) Interdisciplinary Complementary Modules: These will be specially offered courses from the "other" masters programme

(2) Introductory Modules, Intermediate Modules, Advanced Modules: There will be several classes on offer (5 CP each), individual specialisation

Details of all offered courses

Module	Integrative Module I - Introduction in Urban Systems
Title of the course	1.1: RUHR LECTURE – Key Issues in Metropolitan Research
Lecturer	Gurr/Schmidt et al.
Faculty/ Department	Joint Center Urban Systems together with RUBochum and TU DOrtmund
Type of Course	Lecture/compulsory
Day of the week	Mondays
Time	Different
Campus	Different Universities Look here: https://www.uni-due.de/urbane-systeme/ringvorlesung_en.shtml
Method of examination:	Written Examination (Module 1)
Credits	3
Hours/per week (SWS)	2
Language	English
Description/ Kommentar	<p>The series showcases the broad range of disciplines involved in metropolitan research in the University Alliance Ruhr (UAR): Experts from all three universities as well as external guests give insights into their current work. While the main focus lies on the Ruhr Region, experiences from other metropolitan regions are included in a comparative approach. Since 2013, the RUHR LECTURE has been organized by the Institute of Geography at Ruhr-University Bochum and the Faculty of Spatial Planning at TU Dortmund. They are now joined by the Joint Center "Urban Systems" at the University of Duisburg-Essen.</p> <p>Students are familiar with different approaches to the understanding, representation and management of urban and metropolitan research in different sectors and have an understanding of their interdependencies. Details about lectures series: https://www.uni-due.de/urbane-systeme/ringvorlesung_en.shtml</p>

Module	Integrative Module I - Introduction in Urban Systems
Title of the course	1.2: Introduction: Sustainable Urban Technologies
Lecturer	Krumme
Faculty/ Department	Engineering
Type of Course	Lecture/compulsory
Day of the week	Wednesday
Time	between 4 p.m. and 6 p.m.
Campus	Campus Essen
Room	S06 S00 B41
Method of examination:	Written Examination (Module 1)
Credits	4
Hours/per week (SWS)	2
Language	English
Description/ Kommentar	<p>The course introduces the core topics of technology-based issues of sustainable urban development.</p> <p>Coming from the background of the <i>Ecosystem Approach</i> (James J. Kay, <i>American Council on Environmental Quality</i>, amongst others) basic understandings of the urban environment as anthropogenic socio-technical ecosystem are explained. Protected assets (<i>water, soil, air, biodiversity etc.</i>) of ecologically oriented urban planning are defined as subjects of technology assisted innovations in urban environments. The mainstream political and scientific concepts of sustainable development (<i>Dennis L. Meadows, Gro H. Brundtland, Klaus Töpfer, Frederic Vester, Robert Costanza, John Elkington</i>, and others) are presented as well as their implications for a green industrial society under transformed socio-economic conditions. Sub-strategies considering the efficiency and sufficiency of innovations are explained. Technology is reflected as part of the nexus of un-sustainability (<i>Syndrome Approach</i>) and the necessary socio-economic change (<i>Integrated Technology Approach</i>). Networked components of future <i>smart cities</i> are discussed, such as <i>infrastructure, ICT, logistics, transportation and energy supply and consumption</i> issues. Some critical reviews of selected examples of future city concepts and mega/ global cities problems close the course.</p>

Module	Integrative Module I - Introduction in Urban Systems
Title of the course	1.3: Introduction: Urban Culture, Society and Space
Lecturer	Gurr / Wehling
Department	Humanities
Type of Course	Lecture/compulsory
Day of the week	Wednesday
Time	between 12 a.m. and 2 p.m.
Campus	Campus Essen
Room	S06 S00 B41
Method of examination:	Written Examination (Module 1)
Credits	4
Hours/per week (SWS)	2
Language	English
Description/ Kommentar	<p>What does it mean to be "urban" - is it enough to live in a city? What is the "European City"? Is the city losing its role as an economic and cultural centre in the process of globalization? How can we "read" a city? What role does urban culture play in urban systems - indicator or instigator of key developments? Based on selected classic and recent texts as well as visual material such as maps and photographs, the course provides an overview of key issues in urban geography, urban sociology, urban cultural studies and points out their interdisciplinary interfaces with urban economics, urban planning, urban management as well as urban technology.</p> <p>Under the headings of "Form and Urban Space", "Economy, Functions and Urban Space" and "Urban Social Life, Urban Culture and Urban Space", we will introduce key issues in urban studies from a distinctly spatial perspective. These discussions will be complemented by an overview of classic definitions of urbanity and urbanism.</p> <p>The course will equip students with the necessary foundations and frame of reference for further interdisciplinary urban studies.</p> <p>A reader containing most texts to be discussed will be available in the copy-shop Reckhamerweg from early October. Further texts will be proved electronically in the course of the semester.</p> <p>For the first session, participants are expected to have read the first text in the reader.</p> <p>On October, 19, during the first session students will receive basic information on the Masters's Programmes "Urban Systems"</p>

Module	Integrative Module I - Introduction in Urban Systems
Title of the course	1.4: Introduction: Integrated Urban Development
Lecturer	Schmidt / Tran
Faculty/ Department	Engineering
Type of Course	Lecture/compulsory
Day of the week	Wednesday
Time	between 10 a.m. and 12 a.m.
Campus	Campus Essen
Room	S06 S00 B41
Method of examination:	Written Examination (Module 1)
Credits	4
Hours/per week (SWS)	2
Language	English
Description/ Kommentar	<p>This lecture examines the evolving structure of cities and the way that cities can be designed and developed for the longterm future. The most important aspect is seen to be the quality of life in our urban spaces especially in these modern times of conflicting priorities and interests.</p> <p>Its scope includes historical forces that have produced cities, today's and future challenges for urban planning and urban design, interdisciplinary perspectives under the general heading of "The City" with different themes such as sustainability, health, energy efficiency, mobility, climate change, urban green spaces and demographic change.</p>

Module	2A: Introductory Module - Sustainable Urban Technologies
Title of the course	2A.1: Statistical methods and GIS in Urban Studies (en)
Lecturer	Sattler
Type of Course	Lecture and Exercise
Day of the week	Block 1 (German): 20.02.17 until 24.2.17 (9:00am - 4.30pm) or
Time	Block 2 (English): 28.02.17 (Tue) until 03.03.17 and 6.3.2017 (Mo) (9:00am until 4.30 pm)
Campus	Campus Essen, Schützenbahn
Room	SR 102
Credits	5
Language	English / German
Description/ Kommentar	Taking urban problems and processes as examples, the students will be introduced to the fundamentals of descriptive and analytical statistics, to Excel statistical tools, to SPSS as well as to the basics of cartography and spatial analysis using GIS. A reader will be provided.

Module	2A: Introductory Module - Sustainable Urban Technologies
Title of the course	2A.5: Außerbetrieblicher Transport (Intermodal Transport Chains) (en)
Lecturer	Noche
Type of Course	Lecture and exercise
Day of the week	Lecture/ Exercise : Tuesday
Time	between 6 p.m. and 8 p.m. please check LSF Link
Campus	Campus Duisburg
Room	please consult the Link LSF below
Credits	5
Language	English
Description/ Kommentar	This lecture focuses on the structures of transport chains across company boundaries that involve various modes of transport. It also deals with modern concepts of logistic control, ranging from PPC and ERP systems to supply chain management. Aims of the course: The participants learn about the structure of different transport chains. They understand the technical design and organization of supply chains. The students can develop transport chains and calculate key figures. They are able to design IT structures for supply chains and to apply chosen methods and algorithms. They acquire the skills to refine intermodal transport and supply chains in research and to manage them in industrial practice.

Module	2A: Introductory Module - Sustainable Urban Technologies
Title of the course	2A.6: Urbanization of developing world – views from geography (en)
Lecturer	Schneider
Type of Course	Blockseminar
Day of the week Time	Block 1: 21.10.2016 (Fr) Block 2: 11.11.2016 (Fr) Block 3: 25.11.2016 (Fr) always 9am until 5pm Block 4: 2.2.2017 (Thu; 1pm until 6pm) Block 5: 3.02.2017 (Fr; 9am until 5pm)
Campus	Essen
Room	Check LSF
Credits	5
Language	Englisch
Description/ Kommentar	Urbanization in developing countries shows a number of characteristics different from those in the developed part of the world: the process is more rapid, it gives rise to large mega-cities, functional re-organization of urban space is paralleled by processes of diffusing centrality, fragmentation and socio-spatial disparities. Informality and its articulation with formality is of utmost importance. The focus will be on livelihood strategies and housing provision in a fragmented urban space. The distinctive features of urbanization in the developing world will be dealt with in a combination of lectures and seminar work providing basic information and analyzing selected city examples.

Module	3A: Interdisciplinary Complementary Module - Urban Culture, Society and Space I
Title of the course	3A.1: The Development of the European City (en)
Lecturer	Wehling
Type of Course	Lecture/Seminar
Day of the week	Tuesdays 10am until 12 midday
Time	
Campus	Campus Essen
Room	
Language	English
Credits	5
Description/ Kommentar	<p>The lecture provides an interdisciplinary approach to the urban, economic and social development of the European city/cities in Europe from its pre-medieval beginning to the present. This includes the presentation and discussion of basic concepts concerning functional site patterns, urban design and its cultural/political backgrounds as well as phenomena of complexity within cities or between cities.</p> <p>A list of attendance will be produced in the first lesson; certificates require the pass of the final written examination.</p>
Registration for Participation	This course is highly recommended. Please contact in the case of <u>non-participation</u> elke.hochmuth@uni-due.de

Module	3A: Interdisciplinary Complementary Module - Urban Culture, Society and Space I
Title of the course	3A.2: Urbane Systeme (de)
Lecturer	Juchelka
Type of Course	Vorlesung
Day of the week	Tuesdays (start October, 25, 2016)
Time	12.30pm until 2pm
Campus	Campus Essen, Schützenbahn
Room	SM 102
Language	Deutsch (German)
Credits	5
Description/ Kommentar	<p>Inhalte: Urbane bzw. städtische Räume zeichnen sich durch vielfältige strukturelle Differenzierungen, Verflechtungen und Prozessabläufe aus. Die Bedeutung dieser Raumstrukturen nimmt weltweit ständig zu, vielfach wird von einem „Jahrtausend der Städte“ gesprochen. In der Vorlesung werden grundlegende Entwicklungs- und Steuerungsfaktoren städtischer Raummuster aufgezeigt, dabei werden Bezüge zu anderen raumwirksamen Elementen wie Bevölkerung, Wirtschaft und Verkehr hergestellt.</p> <p>Lernziele: Konzeptionen zum Management urbaner Systeme analysieren, Prozesse erläutern, Entwicklungen bewerten und zu Lösungsansätzen beitragen.</p>

Veranstaltungsart	Seminar
Wochentag	Dienstags, Erster Termin und Auftakt: 25.10.2016
Uhrzeit	14:00 bis 16:00 Uhr
Campus	Campus Essen, Schützenbahn
Raum	Siehe LSF
Credits	5
SWS	2
Sprache	Deutsch
Description/ Kommentar	<p>Inhalt des Seminars:</p> <p>In diesem methodisch – aber auch inhaltlich aus stadtgeographischer Perspektive - ausgerichteten Seminar steht im Mittelpunkt die Analyse und Interpretation urbaner Raumstrukturen in topographischen und thematischen Karten sowie Luft- und Satellitenbildern deutscher, europäischer und außereuropäischer Städte.</p> <p>Nach einer Einführung in die Karteninterpretation (mit einer kurzen Wiederholung bzw. Auffrischung zu notwendigen Grundkenntnisse aus der thematischen Kartographie) folgen beispielhafte Analysen ausgewählter Karten, Pläne und Luft-/Satellitenbilder, um städtische Raummuster mit Hilfe dieser Medien hinsichtlich ihrer Strukturen, Funktionen und Prozesse analysieren zu können. Das Spektrum der vorgestellten und analysierten kartographischen Darstellungsformen reicht von topographischen über thematische Karten bis hin zu Flächennutzungs- und Bebauungsplänen. Besondere Vorkenntnisse bzw. spezifische Teilnahmevoraussetzungen sind für dieses Seminar nicht erforderlich.</p> <p>Qualifikation:</p> <p>Abschlussklausur in der letzte Seminarsitzung (07.02.2016); regelmäßige Teilnahme, aktive Mitarbeit sowie vorbereitende Übungsaufgaben</p>
Anmeldung wegen Teilnahme	Während der Veranstaltung am 25.10.2016

Module	Module 2 oder 5 (Aufbaumodul) oder 8 (Vertiefungsmodul)
Title of the course	Making Heimat Germany - Refugees
Lecturer:	Casanova/Lengyel
Type of course:	Seminar
Day of the week:	from November 3rd to January 26th.
Time:	Always Thursday 4pm until 7 pm
Campus:	Essen
Room:	Look LSF
Credits:	5
Language:	English
Description:	<p>A collaboration with the Deutsches Architekturmuseum Institute for City Planning and Urban Design/Master of Urban Systems Universität Duisburg-Essen</p> <p>Instructors Ms.AUD Marielly Casanova, Ms. Janka Lengyel</p> <p>The Deutsches Architekturmuseum (DAM) is curating the German Pavilion Exhibition Making Heimat. Germany, Arrival Country at the 15th Venice Architecture Biennale 2016. The DAM is planning to open the same exhibition in March 2017 in their museum in Frankfurt. Their idea is to expand on their refugee accommodation data base and give a more critical view on the existing situation and the future possibilities.</p> <p>Thanks to the seminar “inclusive Neighborhoods” from the WS 2015/2016, the Institute of City Planning and Urban Design of the Universität Duisburg Essen has been invited to participate with a group of students to contribute to the exhibition’s show in the evaluation of two projects. Two very contrasting approaches (Essen Fischlaken “Multifunctional Temporary Shelter” and the Kitev Hochhaus in Oberhausen) will be documented, analyzed and visualized to develop a critical narrative that compares both the negative and the positive elements.</p>
Contact:	Marielly Casanova marielly.casanova@uni-due.de (limited participation with application; look for details LSF)
